Notification of Force Majeure for Our Indonesia Made Products

Dear Business Partner,

Indonesia stringent social distancing rules extended to 22/May/2020, which include a ban on gatherings of more than five people, limited public transport services and mandatory work-from-home, have affected the production of radial/chip type aluminum electrolytic capacitor and varistor at P.T. Indonesia Chemi-Con. In addition, there is a problem in the material supply from Malaysia because of nationwide lockdown.

Due to the circumstances beyond our reasonable control, Nippon Chemi-Con Corporation is declaring force majeure condition for the products manufactured at P.T. Indonesia Chemi-Con.

We apologize for any inconvenience or interruption this may cause you. We sincerely appreciate your patience during this difficult time.

We will continue to work diligently to minimize the impact caused by this event.

If you should have any immediate questions, please contact your local sales representative.

Sincerely yours,

Shuichi SHIRAISHI

Senior Managing Executive Officer

Division Manager – Sales Headquarters
